

Edgewater Landing Website Overview For Residents

The top line of the E/L website shows a list of "menu items" that can be selected to navigate through the E/L screens. Some of the menu items on the top line also have additional menu selections below them that are visible either by moving a cursor over them or selecting the top menu item. For example the "About Us" menu includes a menu item named "What's Happening" which discusses upcoming events in the Landing.

Some of the screens that residents may want to view are:

About Us ---> What's Happening
