

Quilting and Yarning

We had a great time this month folks. We had 3 classes. One class was tips, secrets and shortcuts. Remember, if your having trouble threading that needle, just spit on it and the thread will go right through. I said yuck too but it works, no fooling.

What's the Landing coming to with the Topless Club and the quilters Playing Strip Poker. Whoo we, Hallelujah, we're having fun!!! Don't worry nobody lost their shirt. The ante was a strip of fabric. Paula won them all and sewed them together and made a beautiful tablecloth red, white and blue. Here's a picture so you all can

enjoy.

Our 3rd. class / projects was making safety sashes for nighttime Landing residents. Folk, those little flashlights or reflectors just don't light you up and you are still very very hard to see. So we hope you will wear one

of our sashes and **help us save your life!**

Paula and the gals did a great job.

Since this was our last meeting until September, we ended it with a catered luncheon and surprise 80th

birthday cake

for Mary Ann Frey. It was super.

Have a great summer ya all. Be safe and have fun and we'll see you in September.

Linda Walsh
